The Bristal Assisted Living

Life... With a Little Help

For over a decade now, The Bristal has been known for representing the pinnacle of assisted living. What began as a single ground-breaking, visionary community back in 2000, has become a formidable family of communities serving the tri-state area. Our communities strike the ideal balance between independence, luxury, health and safety, and our residents and families know and love us for the wonderful lifestyle we ensure.

The Joy of Independence... Without Ever Being Alone

Life at The Bristal means exceeding the highest senior living expectations. At every community, we work very hard to create an environment that, above all, champions compassion, dignity and grace. The Bristal helps residents live their very best, enjoying

the confidence of personal freedom with the peace of knowing assistance is there. This is our singular mission at The Bristal... to create a life Where Every Day Means More.®

The Bristal offers spacious apartments, an activity center, country club dining, a library, gathering nooks, and countless recreation and wellness programs. All communities have a cinema, a fitness center and a salon, and several communities offer an outdoor pool and recreation area.

Life's Daily Tasks Can Be Challenging, But at The Bristal, You Live Carefree

Nutritious meals are prepared and served to perfection three times a day. Services such as housekeeping, weekly linens and laundry, plus transportation to activities and cultural events, churches and synagogues, as well as social and shopping excursions — these all make for richer lives and happier, healthier lifestyles.

With a high staff-to-resident ratio, our compassionate, trained team provides caring assistance whenever needed in such daily tasks as bathing, dressing, and grooming, as well as medication monitoring and more.

Hands-On & Hearts-In®

As seniors continue advancing in years, even the simple tasks of life can become more difficult to manage. When everyday chores prove too much to handle, or when an occurrence or unforeseen circumstance becomes a life-changing event, The Bristal helps you take a healthy and happy next step. Most of what sets The Bristal apart is how deeply committed we are to excellence in everything we do. Residents here live complete and confident lives, because the one-on-one personal attention they receive is crafted from proven research and results. Days are filled with interaction, fulfilling activities and, yes, let's not forget, fun. It all comes together with an expert staff of exceptionally skilled professionals, whose deep and ongoing training and education makes them personally and genuinely invested in what they do, and for whom they care. It's the result of a comprehensive, research-based care and sensitivity training program we've implemented at The Bristal. We call it Hands-On & Hearts-In®.

Reflections Memory Care Program

Each of The Bristal communities has a private neighborhood called Reflections. Reflections is a highly personalized, engagement-based memory care program that specializes in helping aging adults manage Alzheimer's disease and other memory-related cognitive disorders — and do so with dignity and grace. Each location is staffed with experienced professionals who are trained in proven therapies, strategies and modalities for enhancing the quality of life for these special-needs residents and their families.

Where comforting spaces and familiar faces bring peace to forgetful minds.

For safety, the Reflections area is electronic keypad-protected and fully secured, so that the daily activities of our residents can be managed within surroundings that are consistent, comforting and familiar. Most importantly, Reflections programs and activities are customized to each resident's level of ability, delivering effective memory care through positive, encouraging and life-affirming experiences.

Our Mission

To ensure residents experience the absolute finest in assisted living today — by providing extraordinary accommodations, delivering expert care and support, as well as ensuring a lifestyle that is healthy and active, abundant in dignity and grace.

Our Vision

To challenge every preconceived notion of what assisted living is — by creating an environment so uniquely loving, so rich in genuine compassion and so driven by exceptional senior living, that residents and loved ones fully embrace our communities as home.

ASSISTED LIVING

Quality Communities Created by
Engel Burman

As developers, owners and managers of The Bristal Assisted Living, The Engel Burman Group is a widely respected development organization in the tri-state area that has always had a strong commitment to developing quality senior living solutions. The Engel Burman Group created Ultimate Care Management not only to operate The Bristal, but also to ensure that each community achieves a unified mission and vision. And, of course, each community of The Bristal is fully licensed by the Department of Health.
