

Premier Orthopedic Supply, Inc. manufactures and distributes orthopedic products nationwide. Our product line keeps expanding and evolving based on the needs and feedback of clinicians. We want to ensure that both our customers and patients receive the highest quality and most cutting edge products.

Customer service is our top priority. Our goal is to assist clinicians, enabling them to focus on providing the best quality of care to their patients. We strive to take care of the customers and exceed their expectations.

Premier Orthopedic Supply not only carries its own line of orthopedic products, which have been well received in the industry, we also carry a variety of product lines so our clinicians are not limited in options. Our mission is to continuously strive to offer health care providers with what they need to achieve positive patient outcomes.

This time more than ever, health care professionals are required to have both clinical and reimbursement information. Premier Orthopedic Supply provides our customers with products that best match both diagnosis codes and suggested billing "L" codes.

Let's discuss what programs can help you increase the revenue streams of your practice and facility. We have the answers.

TABLE OF CONTENTS

Premier LSO Pulley Closure

The Premier LSO Back Brace with a Pulley Closure System was designed so that a patient can easily unload the intervertebral discs with a dual action pulley system. The Premier LSO Back Brace with Pulley Closure provides compression to the paravertebral soft tissues. The breathable material allows for patient comfort & compliance.

Indications:

- Chronic and acute strains
- Degenerative disc disease
- Post-surgical stabilization
- Mechanical lower & mid-back pain
- Spondylosis
- Spondylolisthesis
- Herniated discs
- Bulging discs
- Spinal stenosis

Premier Hinged Knee

The Premier Hinged Knee Brace features a wrap-around design enabling the clinician and patient to apply the device more easily. It has an elasticized top strap for a better fit as well as heavy-duty hinges for both medial and lateral support. However, it is lightweight and the material is breathable for patient comfort.

Indications:

- Mild ligament instabilities
- Degenerative joint disease
- Muscle weakness
- Strains and sprains

LOWER EXTREMITY

Premier Hinged Patella Stabilizer Knee Support 3 in 1 brace

1) As a Hinged Patella Stabilizer, the brace will track the patella properly through the full range of motion. The adjustable/removable tracking stabilizer can be positioned for lateral or medial subluxation allowing for dynamic patella control.

Indications:

- Patellar Subluxation/Dislocation
- Patellofemoral Pain Syndrome
- Patellofemoral Stress Syndrome
- Jumper's Knee
- Arthritis
- Osgood-Schlatter disease

2) As a Hinged Knee Support with Stabilized Patella, simply remove the tracking stabilizer. The brace can still offer the benefits of stabilizing the patella due to the lateral/medial hinges and sewn-in donut buttress.

Indications:

- Medial/Lateral instability
- Muscle/Ligament weakness
- Strains or Sprains
- Degenerative Joint Disease

3) The brace lastly can function as a Hinged Knee Sleeve.

Indications:

- Medial/Lateral Instability
- Muscle/Ligament Weakness

LOWER EXTREMITY

Premier Post-Op Drop Lock

The Premier Post-Op Knee is a simple brace with easy to use hinge settings, including a drop-lock button that adjusts at 0, 15, 30, 45 degrees. The struts can also be adjusted in length from 17" to 28" with just the push of a button.

Indications:

- Post-op/post-injury immobilization or range of motion control
- Post total knee replacement
- Post ORIF
- Fractures of the femur, fibula, tibia or patella
- Ligament reconstructive procedures
- Meniscal repairs
- Post fracture management
- Rom Control is Flexion 0° to 120°
- Rom Control is Extension 15° to 90°

Product #	Style	Size	Thigh Circum
POS-8200	Cool Wrap	Regular	Up to 27"

Premier Post-Op Knee

The Premier Post-Op Knee with ROM was designed so that the application of the brace is simple for both the clinician and patient. The low profile hinge can be set and locks quickly in 0, 10, 20, 30, 45, 60, 75, & 90 degree increments. The Full Foam version provide the optimum compression and control of soft tissues. The breakaway struts makes for a simple, tool-free length adjustment.

Adjustable

22" Full Length

20" Top portion removed

LOWER EXTREMITY

Premier Wide Foot Plate Fixed Walker Tall and Short (Metal Upright)

The Premier Wide Foot Plate Walker was designed and constructed with malleable aluminum uprights. The wide foot plate offers both patient comfort and stability. The rocker bottom is low and wide to help promote a more natural gait. It is offered in a tall and short version.

Indications:

- Moderate to severe ankle sprains and strains
- Stable foot and/or ankle fractures
- Post ORIF
- Post-surgical applications
- Cast removal

Premier Wide Foot Plate Air Walker Tall and Short (Metal Upright)

The Premier Wide Foot Plate Air Walker is designed with a built-in bladder pump which helps control compression levels, increase stabilization and reduce edema. It is constructed of durable, malleable aluminum uprights. The wide foot plate makes it ideal for patients who may have moderate to severe ankle strains, stable foot and/or ankle fractures; or it is often applied post ORIF and cast removal. The non-skid rocker sole helps promote proper gait. Available in a tall and short version.

- Easy to use air bladder pump to control the compression level and accommodate swelling
- Constructed of durable malleable aluminum uprights
- Wide foot plate for patient comfort and stability
- Treaded sole for patient safety
- Rocker sole helps promote proper gait
- Offered in a standard and low top version

Indications:

- Moderate to severe ankle sprains and strains
- Stable foot and/or ankle fractures
- Post ORIF
- Post-surgical application.

Premier All Activities Ankle

The Premier All Activities Ankle brace has a lace-up design for a secure fit and is constructed of nylon for long lasting wear. The figure-8 strapping system and universal stabilization straps allow the ankle to be positioned into inversion and eversion so that maximum stability is achieved. The removable medial and lateral plastic insert stays provides support. The low profile design allows the brace to be worn in an athletic shoe.

Indications:

- Chronic ankle instability
- Prevention or treatment of acute ankle sprains
- Subtalar joint sprain

Innovator X® Post-Op Elbow

Benefiting from our proven, patented technologies, Innovator X, with extending struts, can help improve patient outcomes. With superior comfort, clean aesthetics and the most user-friendly hinge in post-op bracing, Innovator X was designed to increase patient satisfaction and compliance.

- Patented Form Fit® 3-dimensional padding and Lycra® lining improve fit and comfort
- Comfort pad at the neck and shoulder
- Optional arm bar accessory kit provides anti-supination/pronation control during use

- 1) One-touch button enables easy release for slide-to-size length adjustments
- 2) Easy-to-use Innovator hinge makes flexion and extension adjustments simple
- 3) Sensil® silicone padding on straps reduces migration for an improved fit and increased stability
- 4) Malleable aluminum cuffs allow customization for increased fit and support

Indications:

- Post elbow surgery: elbow reconstruction, ligament and tendon repairs, surgical repair of a fracture and biceps repair
- Stable fractures
- Mild to severe soft tissue injuries

UPPER EXTREMITY

Premier Shoulder Sling and Abduction Pillow

The Premier Shoulder Sling and Abduction Pillow was developed for post-operative use to secure immobilization. The sling is constructed with a soft breathable material that wicks away moisture. The hook receivable material enables for indefinite adjustment. The abduction pillow provides 15 degrees of abduction. Waist straps can be cut to the desired length and quick-release buckles on waist and sling make taking the brace on and off much easier for both clinician and patient. Exercise ball provided. Universal left and right

Indications:

- Shoulder arthroscopy
- Rotator cuff repairs
- Soft tissue repairs
- Shoulder sprains and strains
- Separations and dislocations
- Bankart repairs

SPINE/CERVICAL

Premier Low Profile Spinal

The Premier Low Profile Spinal Brace was designed to provide coverage from the Sacrum to the L1 vertebrae. The low profile and lightweight design offers a more comfortable fit as well as can be worn under most clothing. The brace can be easily applied with the elastic material closure system. The dual compression straps with the rigid anterior panel offers hydrostatic “lift”. The compression straps affixed directly to the posterior panel will mold and shape itself to the back providing more support.

Indications:

- Chronic & Acute Strains
- Degenerative Disc Disease
- Spondylosis
- Spondylolisthesis
- Herniated Discs
- Bulging Discs

Part #	Size	Measurements Waist
POS-2101	Small	20" – 26"

Miami J Collar

The Miami J Collar is known as the superior c-spine immobilizer on the market through multiple independent studies. The Miami J Collar's patented design meets the specialized needs of all those afflicted with cervical injuries. The Miami J offers features that enhance compliance and help speed recovery while ensuring immobilization, inhibition of skin breakdown and patient comfort.

- Sorbatex™ padding is antibacterial and clinically proven to inhibit microbial growth which enhances comfort and helps assure patient compliance
- Bioengineered to minimize pressure points in low key known areas: chin, occiput, trapezius and clavicle
- Sizing based on 6 phenotypes to assure proper fit and optimum immobilization
- Comfort adjustment buttons for occiput and mandible, removable sternal pad for supine and swallowing

Collar	Collar Set	Replacement Pads	Size

Phenotype-driven sizing system makes size selection simple while drastically reducing margin of error in fitting a patient. Each collar has a bioengineered front with a specific back designed to work together for superior immobilisation. For paediatric sizing, please see Miami Jr in this catalogue.

SPINE/CERVICAL

JTO Thoracic Extension

The JTO Thoracic Extension provides more control than a collar alone can provide. The innovative device was designed to treat cervical and high thoracic injuries. Its patented design with floating back permits for maximum immobilization without the risk of compensatory motion. It snaps on and off without any tools. It is made with Sorbatex padding, which is antibacterial and clinically proven to inhibit microbial growth, and it enhances comfort to assure patient compliance.

A Cast or Splint for All Life's Surprises

Fiberglass Heat Treated Cast Tape

Performance Cast Tape		
ITEM	DESCRIPTION	QTY
2759002	2" x 4 Yard Cast Coated Roll	10/Bx
2759003	3" x 4 Yard Cast Coated Roll	10/Bx
2759004	4" x 4 Yard Cast Coated Roll	10/Bx
2759005	5" x 4 Yard Cast Coated Roll	10/Bx

*Performance Cast tape comes in a variety of colors and sizes 2"- 4". When ordering colored cast tape, place the color code at the end of the item #.
Example: 2759002R = Red Cast tape

R = Red	
BLK = Black	
GR = Green	
PNK = Pink	
PU = Purple	
DB = Dark Blue	
LB = Light Blue
