

# Pocket S-LAMS Card

## NYC Stroke Triage Protocol

(Front)

\* Per OLMC direction if transport time ≤ 30 min

\*\* e.g., trauma, treated hypoglycemia with resolved symptoms

# Pocket S-LAMS Card

## OLMC Stroke Consult

Certification, name, unit,  
CAD

Age, gender, chief  
complaint

Time of last known well

VS: HR, BP, O2, RR,  
FSBG (Repeat FSBG, if treated)

Pertinent History and  
Exam

NYC S-LAMS for each  
element and total score  
(and repeat if changed)

This is EMT \_\_\_\_\_ on Unit \_\_\_\_\_ CAD# \_\_\_\_\_.  
We have a \_\_\_\_\_ y/o m/f with left/right sided weakness  
and slurred speech that started \_\_\_\_\_ hours/mins ago  
witnessed by \_\_\_\_\_. Vital signs are BP \_\_/\_\_, HR\_\_\_\_,  
RR\_\_\_\_, FSBG = \_\_\_\_\_. NYC S-LAMS Score is \_\_\_\_\_ with \_\_\_\_\_  
for facial droop, \_\_\_\_\_ for arm drift, \_\_\_\_\_ for speech, and \_\_\_\_\_  
for hand grip. We are requesting physician approval  
for transport to the closest Thrombectomy Stroke Center.
