

Closed temporalis gap

Covers zygomatic bone

Open temporalis gap

Zygomatic process fixation

Cranio-maxillofacial implant customizability

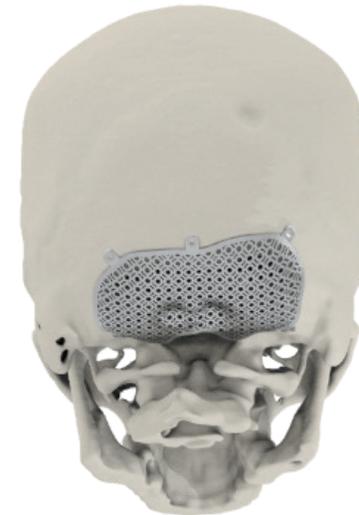

Bi-lateral coverage

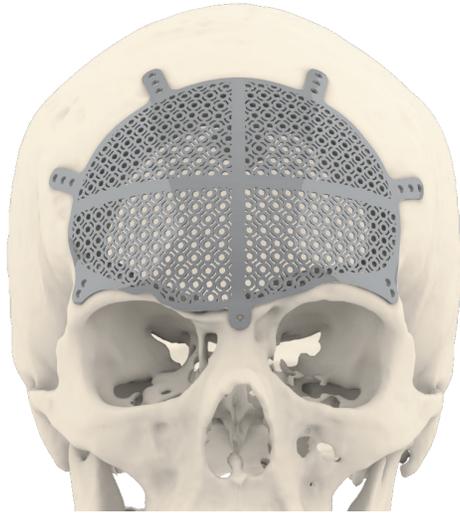

Covers thin bone area

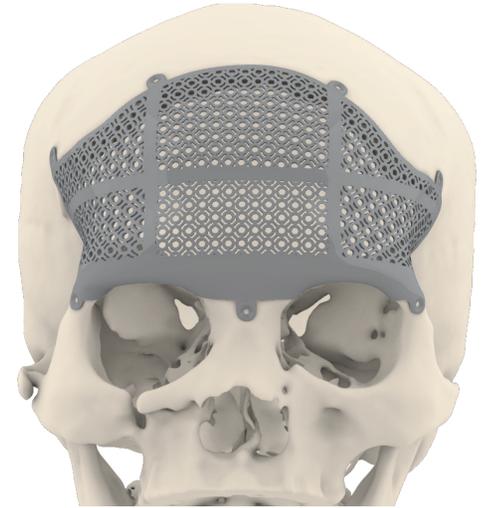

Bi-lateral coverage with occipital defect

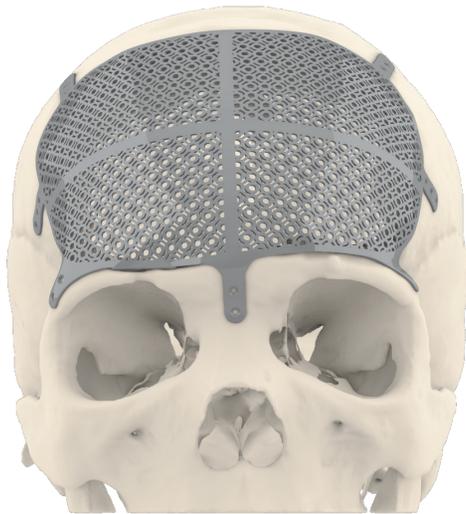

Occipital defect

Bi-frontal avoiding supraorbital foramen

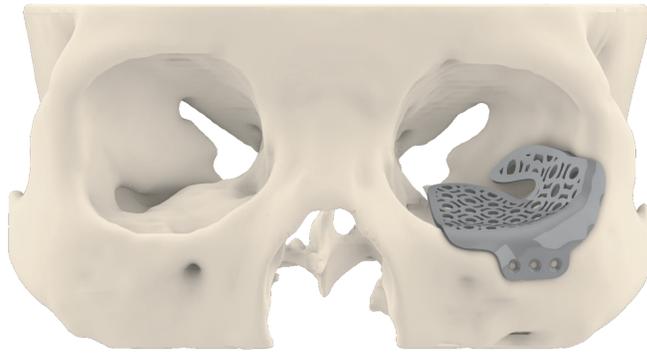

Bi-frontal and orbital roof

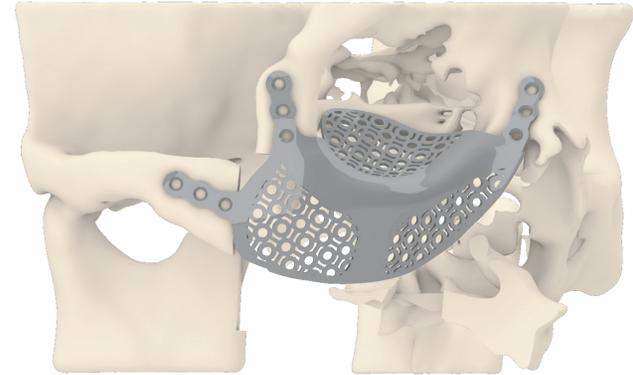

Bi-frontal with fixation points customizability

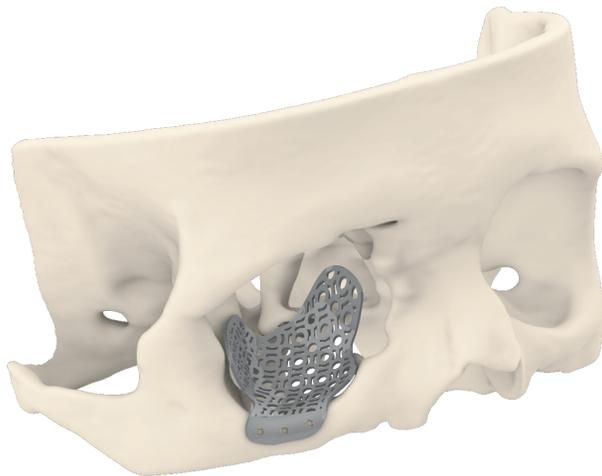

Bi-frontal and temporal coverage

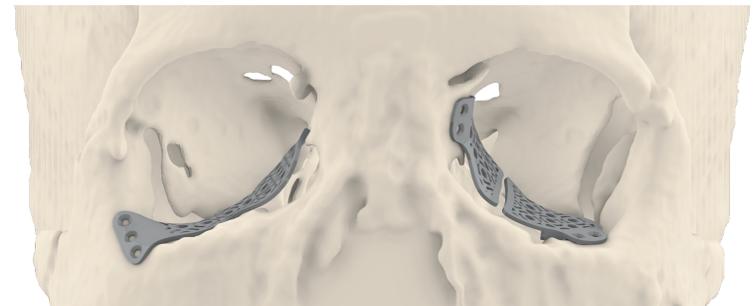

Orbital floor with avoid nerve

Zygomatic defect with orbital floor

Orbital floor and bi-lateral wall coverage

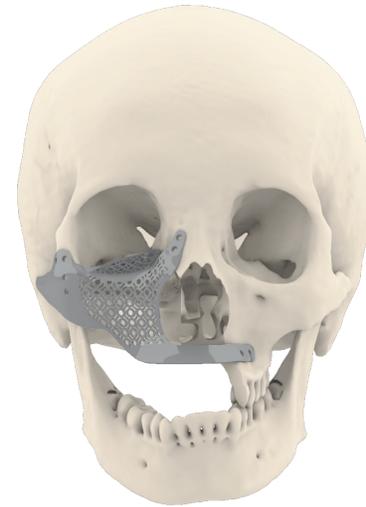

Multiple implant for orbital floor and wall

Cranio-maxillofacial implant customizability

Multiple implant for orbital, zygoma, and maxilla

Orbital, zygoma, and maxilla coverage

Cranial, orbital and maxillofacial coverage

Cranial and orbital roof
