Precision in practice

Introducing the next-generation Zio® service

The Zio service monitoring solution.

Comfort. Ease. Accuracy. The patented design of Zio ECG monitors enables high patient compliance and analyzable time with minimal noise or artifact.[1-3]

Long-Term Continuous Monitoring Service

Zio® monitor

Lighter, smaller, and thinner - providing a more inconspicuous wear experience, with an impressive 99% patient compliance.[1,4]

Mobile Cardiac Telemetry Monitoring Service

Zio AT®

Provides continuous, uninterrupted recording, actionable wear-time reports, and a comprehensive end-of-wear report.[3,5-7]

Products shown are not to scale

End-to-end service that aims to simplify cardiac monitoring.

ZIOSUITE PORTAL AND APP

Everything providers need in one place. Interpret reports, manage patients, and more—from the computer or on the go with the provider mobile app.

MYZIO® APP

Supports patients on their monitoring journey with educational content, reminders, and symptom logging.[1]

EHR INTEGRATION

Seamless EHR integration streamlines workflows and simplifies scalability.

ZIO® REPORT

The recorded ECG data is processed by our FDA-cleared, deep learned algorithm. The data is then curated and verified by Qualified Cardiac Technicians (QCTs) to generate a Zio end-of-wear report with 99% physician agreement.[8-12]

Perfecting the experience is at the heart of the Zio service

Zio ECG monitors are designed with the patients in mind and no maintenance or battery changes are required.[2-3, 13]
